

Photo 1: the chip is as shown in photo 1 with 2 lateral cuts at the holes. These cuts are used to attach the chip to the laces of the shoes without having to untie the laces

Photo 2: Details of the cuts and holes

Photo 3/4: Pass the chip under the lace of the shoe in the direction shown in photo 3. Make it stay put using the cuts at the side of the chip as shown in photo 4

Photo 5: Remove the adhesive label.

Photo 6: Tape the adhesive part on the blue part to form a ring as shown in photo 5

Photo 7: If attached correctly, the chip should be as shown in photo 7, fastened to one lace only and free to move.

WARNING - The chip should not be folded, must not be crushed under the laces, you must put under one strap!

If you do not follow these instructions you risk the non-inclusion in the standings!
